Reference Materials for Climate Data Analysis Platform

1. Research Papers

- **"Big Data in Climate Research: Tools and Techniques"**
  Overview of climate data analysis methods.
  Link

2. Technologies

- **Python Pandas/NumPy: For data analysis.**
  Docs

- **Matplotlib/Plotly: For climate data visualization.**
  Docs

3. Key Concepts

- **Analyzing trends in temperature and CO2 levels.**

- **Using APIs (e.g., NOAA) for real-time climate data.**
